Installation Requirements

- Requires a hole cut out diameter of 102mm
- Requires 350mm to be left below the installation surface [underneath the bench-top] to allow the unit to close fully, and sit flush with the bench-top.
- Overall Dimensions: 340mm x 120mm

Installation

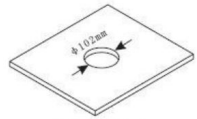

Photo No. 1

A thickness of 5mm - 40mm is required to install this unit

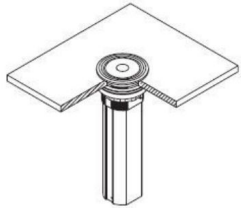

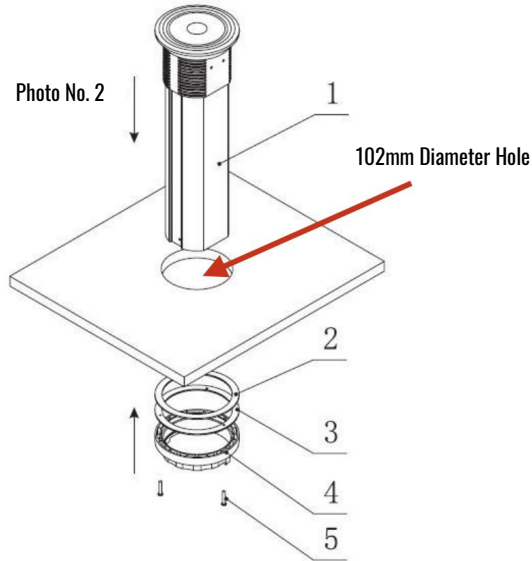

Photo No. 3 - Finished Product

Parts Key:

- 1: Product Main Body
- 2: Mat
- 3. Block Parts
- 4. Fixing Parts
- 5: Screws

Installation Instructions [As per diagram]:

1. Drill a hole of 102mm in diameter
2. Put the main unit through the hole, so it is flush with the bench-top
3. Place the rings onto the unit from underneath the bench-top surface
4. Screw the screws [Part 5] into the last ring [Part 4]
5. Rotate [Part 4] tightly, so the unit is secure. Then tighten the screws [Part 5]

Activating Your V3M

To activate your new V3M, firstly make sure the power switch on the bottom of the unit is switched on. Then tap and hold the power button on the top of the unit until the LED lights flash 3 times.

Using Your New V3M

Once activated, simply tap the power button on the top of the unit to automatically extend the unit.
When finished using your V3M, simply tap the power button again to close the unit.
